

Corporate approval and proceeds direction

October 22, 2026 at 09:00

Board resolution

Birch Quay Holdings Ltd., DEMO-CORP-42. Directors Daniel Mercer and Priya Sen unanimously adopt this replacement resolution in the fictional corporate record. They approve the sale of DEMO-BQ-101 to Leila Noor for CAD 860,000 closing October 23, 2026, and ratify the October 16 amendment signed by Daniel. This resolution replaces the CAD 880,000 minimum in the September 10 resolution for this transaction.

Execution authority

The resolution authorizes Daniel to execute the transfer, closing adjustments and corporate proceeds direction for this identified sale. Both directors approve the resolution. Seller counsel records review of the complete minute entry, articles and signing provisions and confirms no additional corporate approval or restriction applies to this transaction in the supplied fictional record.

Proceeds

Net proceeds are payable only to Birch Quay Holdings Ltd. through seller counsel's trust account under the established company instructions. The board rejects the direction naming Northlight Consulting. No authority is granted to pay Daniel personally or any external recipient.

Record status

The corporate officer certificate dated October 22 confirms continuing active status, director appointments and no revocation of this resolution. These are fictional attestations with no signature images or real corporate identifiers. They supply the authority evidence for the exercise, not real authentication.

Replacement lender instructions

October 22, 2026 at 15:00

Transaction

Fictional lender Harbourline Residential Lending. Replacement instruction HR-418 supersedes HR-402. Buyer: Leila Noor. Seller: Birch Quay Holdings Ltd. Property address: 42 Birch Quay, Toronto, Ontario (fictional). Parcel identifier: DEMO-BQ-101. Purchase price: CAD 860,000. Authorized advance: CAD 602,000. Closing date: 2026-10-23.

Occupancy and property acceptance

Harbourline records receipt and acceptance of the retained coach-house lease at CAD 1,650 monthly and buyer occupation of the main dwelling. Its accepted security description is a main dwelling plus one separately rented coach house. Vacant possession of the coach house is not required. The lender has reviewed the municipal records BQ-C05 and access/fieldwork records BQ-C06 and accepts the reported use and shared access without parking rights on Part 3.

Borrowed contribution

Harbourline accepts the disclosed CAD 28,000 unsecured family loan, repayable in twelve months at 3 percent, as part of the buyer's contribution. It records that no charge on DEMO-BQ-101 is granted for that family loan. This approval does not increase the authorized CAD 602,000 advance. The broker's CAD 630,000 proposal is declined and superseded.

Remaining completion process

The lender accepts the arrangements for removal of C25 and N26 documented in BQ-C04, subject to counsel's completion checks and registration of its new charge. Final reporting follows registration in the ordinary completion process. These are invented lender instructions, not an insurance approval or real lender policy.

Complete fictional title update

October 23, 2026 at 09:30

Scope and ownership

Prepared complete registry record for DEMO-BQ-101 through October 23 at 09:30. No date-range filter; deleted instruments included. Registered owner: Birch Quay Holdings Ltd. Fee simple. Complete legal description: Lot 8, fictional Plan BQ-10, together with the nonexclusive access right in DEMO-BQ-E17 over Part 3 of DEMO-BQ-202. No ownership of Part 3 transfers. This replaces the restricted BQ-03 output.

Instrument history

DEMO-BQ-T12: transfer to current owner, 2012, active ownership entry. DEMO-BQ-E17: access grant, 2018, active. DEMO-BQ-C19: former charge, 2019, deleted by DEMO-BQ-D24 in 2024. DEMO-BQ-C25: charge to Maple Shore Credit Ltd., March 2025, deleted by DEMO-BQ-D27 on October 23 at 08:45. DEMO-BQ-N26: Slate Roof Services Ltd. claim, October 2026, deleted by DEMO-BQ-D28 on October 23 at 09:05.

Instrument review note

Counsel's fictional search certificate records review of the complete description, E17 grant and relevant charge/deletion instruments. D27 identifies C25 and DEMO-BQ-101; D28 identifies N26 and DEMO-BQ-101. No other charge, lien, notice, restriction or easement appears in this complete fictional history. E17 retains the terms supplied in BQ-04, with no parking right.

Timing

The buyer transfer and new Harbourline charge have not yet registered at 09:30; this is a precompletion review. Counsel records that final update, registration and reporting remain normal closing steps. Nothing here establishes later registry events or issues insurance. Every registry event described is synthetic.

Creditor release and lien completion

October 22-23, 2026

Consolidated creditor settlement

Maple Shore Credit Ltd. statement MS-P22 replaces MS-P21. Full settlement for C25 on DEMO-BQ-101 is CAD 435,040 received by October 22 at 16:00, comprising MS-TERM CAD 410,240 and MS-REV CAD 24,800, with no further fee or interest if received then. The security desk confirms receipt at 14:15 from the seller's separate funds. MS-REV is closed and further drawings cancelled; both facility balances are zero.

Correct discharge

The creditor's release confirmation records a full discharge of C25, not C19, on DEMO-BQ-101 under DEMO-BQ-D27 at 08:45 on October 23. No other security parcel is involved. Counsel's instrument report and the updated registry record BQ-C03 both identify that same charge and parcel.

Roof settlement

Slate Roof Services Ltd. and the seller both executed settlement RF-22S on October 22 at 10:00. Contractor counsel acknowledges receipt of CAD 15,000 at 11:40 that day, before the original 15:00 deadline, in full settlement of RF-22 and DEMO-BQ-N26. The settlement releases the roof claim against the property. The prior CAD 2,000 gutter receipt is unrelated and is not credited toward this sum.

Lien discharge and funding

Contractor counsel records registration of DEMO-BQ-D28 discharging N26 from DEMO-BQ-101 at 09:05 on October 23, confirmed in BQ-C03. The seller funded both settlements separately before closing, without new borrowing secured against this property. Neither payment is deducted again in the buyer's closing ledger.

Municipal completion and use confirmation

October 22, 2026 at 13:30

Inspection brought forward

The fictional municipal building office records that the appointment originally offered for October 28 was replaced by an October 22 inspection at 10:00. Its inspector completed the final inspection for DEMO-BQ-21-041 BLD, coach-house conversion, including the egress matter in DEMO-BQ-O18. Required work was accepted, the permit marked COMPLETE and O18 marked CLOSED on October 22.

Separate use response

The fictional municipal zoning office separately responds to the actual configuration described in its file: one principal dwelling and one ancillary coach-house dwelling at 42 Birch Quay, with the latter rented separately. Its October 22 use review records that this described configuration is permitted under the fictional site-specific zoning record. This determination concerns the existing described use, not future expansion.

Other supplied permits

DEMO-BQ-24-090 HVA remains complete for the main-house heating replacement. The municipal file index also lists DEMO-BQ-23-062 BLD for the deck extension, completed October 2023. The current file-status response lists no outstanding building or property-standards orders for this fictional parcel.

Scope

These later responses replace BQ-08's outstanding coach-house status and supply the previously absent use determination. They report the stated municipal matters. They do not inspect title, authorize lending, determine boundaries or grant insurance coverage. Harbourline's separate acceptance appears in BQ-C02.

Current fieldwork and access acknowledgment

October 22, 2026 at 12:00

Current surveyor report

A fictional licensed surveyor's written fieldwork report records an October 22 survey of DEMO-BQ-101, the 2023 deck, coach house, fence and access lane using the complete legal description and E17. The closest deck edge is measured 0.35 metres inside the north legal boundary. The north fence is also inside the lot and does not define the legal boundary.

Occupation and easement location

The report records that the current improvements lie within DEMO-BQ-101 and do not occupy Part 3 of DEMO-BQ-202. No encroachment involving the measured improvements or obstruction of the shared access lane was found in this fieldwork. A text report is supplied for the app; no image interpretation or separate plan drawing is required to read these reported measurements. Real-world reliance would require professional verification.

Neighbour response

After receiving the surveyor's report, the north neighbour withdraws the October 19 deck allegation in a dated acknowledgment. No other boundary dispute appears in the supplied correspondence. The earlier allegation remains part of the history, while the current measurements address it.

Buyer access decision

Buyer and seller execute acknowledgment BQ-ACCESS22 confirming that Part 3 remains neighbouring land subject to shared vehicle passage only. The buyer withdraws the proposed overnight parking use of Part 3 and will park wholly within DEMO-BQ-101. No gate or alteration of E17 is proposed. The purchase description and price remain unchanged.

Verification and payment-control record

October 22, 2026 at 16:00

Party verification attestation

Fictional transaction counsel records completing the applicable firm verification process for buyer Leila Noor, the seller company and its authorized signatory Daniel Mercer. The company record and board authority were independently checked within this fictional scenario. The name Leila A. Noor on the deposit receipt is reconciled to the same buyer. Actual identity records and identifiers are intentionally omitted.

Independent callback

Counsel initiated a callback through the company office number recorded before the disputed message, obtained through the previously established contact file. Both Daniel and Priya confirmed the sale, reduced price approval and corporate proceeds direction. Counsel did not rely on the telephone number supplied in the disputed message.

Disposition of changed instructions

Both directors rejected the Northlight Consulting direction. Counsel recorded that the external message was unauthorized, retained it for the file, blocked reliance on it and completed the firm's incident review. No funds were sent under that message. The source of the unauthorized message remains unidentified; the record makes no accusation against a named person.

Authorized payment path

The directors and counsel independently reconfirmed the established company payment path. The active direction pays only Birch Quay Holdings Ltd. through counsel's trust account. Account numbers and contact details are withheld from this synthetic packet. The incident remains historical, while the specific unverified payment direction is cancelled. This fictional attestation does not authenticate real people.

Reconciled funds and closing update

October 23, 2026 at 09:40

Buyer funds held

Deposit CAD 43,000 credited once. Additional buyer savings CAD 195,000. Family loan CAD 28,000 received and documented as unsecured on the terms accepted by Harbourline in HR-418. Lender advance CAD 602,000 received in counsel's trust account. Total buyer-side funds CAD 868,000.

Uses

Price CAD 860,000 plus the agreed fictional closing-cost allowance CAD 8,000 totals CAD 868,000. There is no second deposit credit, no assumed CAD 630,000 advance and no additional unidentified source. The fixed cost allowance is an exercise assumption, not a computation of Ontario tax or actual professional charges.

Seller-side settlement

Maple Shore CAD 435,040 and roof settlement CAD 15,000 were paid from separate seller funds as recorded in BQ-C04. They are not additional buyer costs and are not deducted a second time from sale proceeds. Corporate proceeds remain payable to the seller under BQ-C01 and BQ-C07.

File status

Counsel acknowledges receiving BQ-C01 through BQ-C07 before this update. The price, date, parties and parcel remain unchanged from the amended agreement. Final registry update, buyer transfer, new charge registration and final reporting remain normal completion tasks. This package records later fictional evidence and no insurance decision. All entities, events and documents are invented, not issued by the named real-world professions or institutions.
