

Signed transaction clarification

AL-AM-15 | AL-X26 | October 15, 2026 | 08:00

Parties and unchanged commercial terms

File AL-X26. Seller Morgan A. Ellis (also recorded as Morgan Ellis). Buyer Alex Chen. Property 18 Alder Lane, Kingston, Ontario. Purchase price CAD 700,000. Deposit CAD 35,000 remains held by transaction counsel and is credited once against the price. Completion remains October 15, 2026. The unsigned October 22 proposal is withdrawn.

Land and access agreed by the parties

The conveyed land is Lot 12, fictional Plan DEMO-44, being DEMO-PIN-001, only. Part 2, DEMO-PLAN-82, being DEMO-PIN-002, remains owned by Rowan Mercer and is not conveyed. Buyer and seller expressly correct the earlier marketing description and buyer expectation of owning the rear strip. Access is non-exclusive under new instrument DEMO-E-18; there is no promise of exclusive ownership or exclusive vehicle use of Part 2.

Actual intended use

Lease AL-L1 continues for the basement dwelling unit through June 30, 2027. The main floor will be rented for up to six months before Alex occupies it. The building has two dwelling units. The October 8 tenancy amendment otherwise remains effective. Buyer acknowledges the revised land and access terms and the actual occupancy arrangement.

Fictional execution record

Recorded as executed at 08:00 by Alex Chen and by Jordan Vale and Casey Rowan jointly for Morgan A. Ellis. Fictional counsel Priya Shah records witnessing both representatives and the buyer. These typed execution records are simulation evidence, not actual signatures. This clarification supersedes inconsistent transaction descriptions, not independent creditor or municipal requirements.

Complete authority and joint execution record

AL-A15 | AL-X26 | October 15, 2026 | 08:10

Complete fictional instrument AL-POA-20

Executed August 20, 2026 by principal Morgan A. Ellis. Clause 1 appoints Jordan Vale and Casey Rowan jointly for the sale of DEMO-PIN-001. Clause 2 permits execution of the purchase, transfer and related sale documents for that parcel. Clause 3 limits this appointment to this sale. Clause 4 requires both representatives to execute the transfer and every net-proceeds direction; neither may act separately. Clause 5 permits correspondence delivery to either representative without delegation of signature authority. Clause 6 ends the authority after this sale or written revocation. Clause 7 requires price at least CAD 690,000. Clause 8 prohibits conveyance of another parcel, alteration of joint execution, or directing proceeds to either representative personally.

Entire restrictions schedule and execution

Schedule R, the only schedule: proceeds must be paid to Morgan A. Ellis through counsel trust; no third-party business recipient is authorized. No further restriction is recorded in this fictional instrument. Principal and fictional witnesses Priya Shah and Evan Brooks are recorded as having executed all pages on August 20. This paragraph supplies the previously omitted schedule for the exercise.

Continuing authority and final documents

Counsel Priya Shah records review of the complete instrument, execution and continuing effect for this fictional transaction on October 15. Morgan confirmed through the established intake contact that no revocation or amendment has occurred. Final transfer AL-T15 conveys DEMO-PIN-001 only to Alex Chen for CAD 700,000; Jordan and Casey both executed it at 08:10. Final direction AL-PD15, executed by both at the same time, directs net sale proceeds only to Morgan through counsel trust. These replace the Jordan-only drafts; the document-copy consent is not relied on as execution authority.

Verification and payment-direction follow-up

AL-V15 | AL-X26 | October 15, 2026 | 08:20

Name and supplied verification evidence

Fictional counsel Priya Shah records completion of the exercise identity checks for Morgan A. Ellis, Alex Chen, Jordan Vale and Casey Rowan using original records and live meetings, with comparison to the complete authority and executed transaction documents. The middle-initial omission remains explained by the name declaration. No real identity documents or personal identifiers are contained in this pack. This is a professional-attestation scenario, not independent identity authentication by an application.

Previously established channels

Counsel initiated callbacks using the contacts already recorded before the disputed October 13 messages, not the replacement number or address in those messages. Morgan, Jordan and Casey confirmed the final direction AL-PD15. Seller counsel was independently reached through its original file contact, desk@alder-counsel.example.invalid; no contact change was authorized. Actual telephone and bank numbers are deliberately absent.

Disposition of disputed payment instructions

Morgan and both representatives expressly reject payment to Vale Project Services. The October 13 replacement direction and purported confirmation from desk@closing-support.example.invalid are not operative instructions. Counsel records that no transfer was made under them. The final beneficiary is Morgan A. Ellis; counsel independently checked the beneficiary and standing trust instructions through the established channel. A two-person payment-control check is recorded against AL-PD15.

Remaining scope

The origin of the disputed messages is not established by this follow-up; no finding of criminal conduct or impersonation is made. The suspicious communications are retained in the file. These records document the response to the specific payment risk and do not authenticate themselves merely by being uploaded.

Cedar security-desk release confirmation

CB-15 | AL-X26 | October 15, 2026 | 08:30

Creditor and exact security

Cedar Bank security desk. Borrower Morgan A. Ellis. Charge DEMO-CH-100. Purchased parcel DEMO-PIN-001, 18 Alder Lane. Associated separate storage parcel DEMO-PIN-003. Authorized fictional security officer Taylor North signs this release confirmation; it is not issued only by the account officer.

Conditions and amount settled

Security desk accepted the separate CAD 45,000 substitution for DEMO-PIN-003 on October 14. It authorized release of DEMO-PIN-001 on receipt of CAD 381,640.00. Cedar confirms receipt and acceptance of that amount from seller pre-completion funds on October 14. The funds were not supplied by Alex or deducted from the buyer deposit. No amount remains payable as a condition of releasing DEMO-PIN-001.

Release scope

Cedar executed partial discharge DEMO-D-100R, expressly identifying DEMO-CH-100 and releasing all its security under that charge against DEMO-PIN-001. Registry acknowledgment records registration October 15 at 08:25. Cedar retains whatever security is described against DEMO-PIN-003; this is not a discharge of that separate parcel. The conditional CB-13 record and expired CB-09 amount are historical and are superseded for release of DEMO-PIN-001 by this completed settlement.

Confirmation channel

Transaction counsel records receipt directly from the previously established Cedar security-desk contact and matched the acknowledgment to the current fictional register. No payment destination is provided or requested in this document.

Birch corrected schedule and release

BPL-15 | AL-X26 | October 15, 2026 | 08:35

Corrected creditor schedule

Birch Private Lending security administrator Avery Cole confirms DEMO-CH-220 originally secured DEMO-PIN-001 and DEMO-PIN-003. The DEMO-PIN-003-only schedule on BPL-13 was incomplete. This written correction identifies the same borrower Morgan A. Ellis and the purchased property 18 Alder Lane, DEMO-PIN-001.

Settlement and released parcel

Birch confirms receipt and acceptance of CAD 58,600.00 from seller pre-completion funds on October 14. No further payment or condition is outstanding for release of DEMO-PIN-001. Executed partial discharge DEMO-D-220R releases DEMO-CH-220 from DEMO-PIN-001 and is acknowledged registered October 15 at 08:28. The creditor does not certify removal of its security from DEMO-PIN-003.

Unrelated old discharge

DEMO-D-88 concerns DEMO-CH-088 only. It was not evidence of discharge of either DEMO-CH-100 or DEMO-CH-220. The new partial discharges identify the correct charge and parcel individually. Counsel obtained this correction directly through the previously established Birch security administrator contact.

Contractor settlement and lien release

AL-L15 | AL-X26 | October 15, 2026 | 08:40

Scope of settlement

Alder Masonry Services and Morgan A. Ellis record a full settlement of disputed foundation and basement invoice F-31 and the associated CAD 28,400 claim registered as DEMO-L-91 against DEMO-PIN-001. The claimant accepts CAD 28,400.00 received from seller pre-completion funds on October 14 in full settlement of that claim. Kitchen invoice K-08 and its earlier CAD 12,000 receipt remain separate; the kitchen receipt is not relied on as settlement of F-31.

Executed release

Fictional authorized claimant signatory Devon Lane and Morgan A. Ellis executed release AL-L15 on October 14. The correct instrument identifier is DEMO-L-91, not DEMO-L-19. The release expressly withdraws the foundation/basement claim and authorizes the necessary removal of DEMO-L-91 against DEMO-PIN-001. The unsigned proposed DEMO-L-19 release is withdrawn.

Recorded disposition

Fictional registry acknowledgment DEMO-LR-91 records discharge of DEMO-L-91 at 08:32 on October 15. Counsel Priya Shah confirms matching the executed settlement, claimant authority and acknowledgment to the current register. This is a supplied disposition record, not a calculation of statutory expiry or a general priority opinion.

New vehicle-access instrument

DEMO-E-18 | AL-X26 | October 15, 2026 | Registered 08:45

Grant and complete scope for this exercise

Grantor Rowan Mercer, registered owner of DEMO-PIN-002 (Part 2, DEMO-PLAN-82), grants for the benefit of DEMO-PIN-001 a non-exclusive right of pedestrian and vehicle passage along Part 2 to and from the rear garage. The grant benefits the owner and lawful occupants of DEMO-PIN-001, including successors. No ownership of Part 2 transfers.

Limits and obligations

Parking, storage and construction on Part 2 are excluded. Passage must not be obstructed. The benefiting owner pays half the reasonable documented cost of routine access-surface maintenance; no unpaid maintenance amount is recorded at execution. Existing pedestrian grant DEMO-E-17 remains, and this separate grant adds the stated vehicle rights without granting exclusive access.

Execution, registration and informed acceptance

Rowan Mercer and Morgan A. Ellis executed the instrument October 14, with fictional counsel witnessing. DEMO-E-18 is acknowledged registered against both parcels at 08:45 October 15. Buyer Alex Chen acknowledges the non-exclusive right and restrictions in AL-AM-15 and counsel confirms receipt of the complete three-clause grant represented on this page. The earlier neighbour objection is withdrawn to the extent inconsistent with these expressly granted rights; no broader consent is inferred.

Current surveyor fieldwork report

AL-S15 | AL-X26 | October 15, 2026 | 08:50

Commission and current fieldwork

Fictional surveyor Cameron Lake reports fieldwork completed October 14 on Lot 12, DEMO-PIN-001 and its boundary with Part 2, DEMO-PIN-002. Reviewed records include DEMO-PLAN-82, DEMO-E-17 and the executed DEMO-E-18 access corridor. Fieldwork includes the 2024 deck, replacement garage apron, garage and current fences, rather than only the 2009 conditions.

Recorded observations

In this fictional field report, the outer edge of the replacement garage apron is 0.20 metres inside Lot 12 at its closest point to Part 2. The deck and garage are within the recorded Lot 12 boundaries. No occupation of Part 2 by these improvements or current fences was observed. The access corridor is unobstructed and connects to the garage apron. The old 0.6 metre fence offset is not used as a measurement of current improvements.

Reconciliation and scope

The apparent overlap in the photograph was not confirmed by field measurement. This report supersedes the archived text for these identified current features. It does not determine legal enforceability of easements, hidden conditions, zoning, structural adequacy or insurance coverage. No drawing or image interpretation is required to read these expressly stated observations; a human reviewer may require the underlying plan.

Municipal inspection and permit completion

MUN-15 | AL-X26 | October 15, 2026 | 08:55

Earlier inspection and notice disposition

The fictional municipal inspection for DEMO-M-37 was brought forward from October 17 and completed October 14. Responsible inspector Lee Park records that the supplied plans and inspection cover basement sleeping accommodation, egress and a total of two dwelling units at 18 Alder Lane, DEMO-PIN-001. Required corrections were completed and inspected. DEMO-M-37 is marked CLOSED effective October 14; the October 17 appointment is cancelled.

Scope of permits and use

Permit DEMO-P-14 remains limited to deck stairs. Separate permit DEMO-P-38 covers basement conversion to a dwelling unit and structural foundation-wall reinforcement described in plans M38-A and M38-S. Completion inspections under DEMO-P-38 are recorded satisfactory on October 14. The fictional municipal use confirmation permits the two-unit residential configuration described in AL-AM-15, including a basement dwelling and main-floor dwelling.

Current search and limitations

Municipal records officer Lee Park records a file search through 08:55 October 15 for this parcel. DEMO-M-22 and DEMO-M-37 are both closed; no other open notice or work order is listed in that search. This statement supplies municipal status within the searched records, not a guarantee of hidden building conditions, a lender consent or an insurance decision. The earlier deck-only clarification is historical and did not itself close the basement notice.

Current fictional register and instrument reconciliation

REG-15 | AL-X26 | October 15, 2026 | Search through 09:00

Search scope and land

This is the current complete fictional registry record for the exercise as of 09:00 October 15, replacing the incomplete October 13 prepared snapshot for current-status purposes. DEMO-PIN-001 is Lot 12, fictional Plan DEMO-44, with no Part 2 included. Registered owner remains Morgan A. Ellis before the proposed transfer. DEMO-PIN-002 is Part 2, DEMO-PLAN-82, registered to Rowan Mercer.

All entries in the fictional record

DEMO-CH-100 is released from DEMO-PIN-001 by DEMO-D-100R registered 08:25. DEMO-CH-220 is released from DEMO-PIN-001 by DEMO-D-220R registered 08:28. DEMO-L-91 is discharged by DEMO-LR-91 registered 08:32. DEMO-D-88 relates only to old charge DEMO-CH-088. DEMO-E-17 pedestrian access and DEMO-E-18 non-exclusive vehicle access remain benefiting DEMO-PIN-001 over DEMO-PIN-002; DEMO-E-18 registration is recorded at 08:45 against both parcels.

Reconciliation and boundaries of the search

Fictional counsel Priya Shah records review of the complete instruments described in this pack and reconciliation of creditor, charge, lien, discharge and parcel identifiers. No additional active charge, lien or other interest is recorded against DEMO-PIN-001 in this complete exercise record beyond the access rights stated above. The purchaser transfer and new Summit charge have not yet been registered; this is a pre-completion search. A later registration or changed closing requires an updated check.

Simulation status

This document does not originate from a real Ontario registry and cannot establish real-world title. The complete record is an authored scenario fact for this demonstration, not a claim that the app can retrieve or certify a live register.

Summit revised lender instructions

SR-215 | AL-X26 | October 15, 2026 | 09:10

Borrower, security and financing

Summit Residential Finance instructions desk, fictional authorized officer Sam Patel. Borrower Alex Chen. Security DEMO-PIN-001, 18 Alder Lane. Purchase price CAD 700,000. Authorized advance remains CAD 500,000. Completion remains October 15, 2026. No CAD 515,000 advance is authorized; the broker proposal is withdrawn. These instructions supersede inconsistent conditions in the October 7 letter and SR-204 for the specific matters addressed here.

Express acceptance of actual occupancy

Summit received AL-AM-15 and the October 8 executed tenancy amendment. Summit expressly approves continuation of basement lease AL-L1 through June 30, 2027 and rental of the main-floor dwelling for up to six months before Alex occupies it. Summit approves the two-unit residential configuration described in MUN-15. The former vacant-possession, single-dwelling and immediate owner-occupation assumptions no longer apply.

Response to every reported additional matter

Summit received counsel reports and records concerning Lot 12 only, exclusion of Part 2, non-exclusive access under DEMO-E-18, the Cedar cross-security release, Birch private financing and parcel-schedule correction, and settlement/discharge of DEMO-L-91. Summit accepts the revised purchase description and access terms. It accepts REG-15, CB-15, BPL-15 and AL-L15 as the reported disposition of those specific existing interests and does not require release of the separate DEMO-PIN-003 for this advance. No additional unaddressed reporting request on those named matters remains under SR-204.

Funds and remaining normal completion steps

Summit accepts reconciled ledger AL-F15 on the following page. The advance is authorized for the stated October 15 transaction subject to unchanged standard execution, registration and funds-control steps administered by counsel. This instruction is lender consent, not evidence the advance or purchaser registration has already occurred, and not an insurer underwriting decision.

Reconciled completion ledger and counsel handoff

AL-F15 | AL-X26 | October 15, 2026 | 09:15

Sources of buyer completion funds

Deposit held in counsel trust: CAD 35,000. Additional buyer funds received and confirmed in trust: CAD 170,000. Authorized Summit advance pending ordinary funding: CAD 500,000. Total sources including the authorized pending advance: CAD 705,000. The deposit is counted once and is not to be returned or counted again as additional buyer cash.

Uses and reconciliation

Purchase price CAD 700,000 less deposit credit CAD 35,000 leaves CAD 665,000 due on completion. Additional buyer funds CAD 170,000 plus authorized advance CAD 500,000 provide CAD 670,000, allocated as CAD 665,000 price balance and CAD 5,000 agreed final costs for this synthetic exercise. Total price and costs are CAD 705,000. No further price adjustment is agreed in this fictional file. The earlier CAD 205,000 buyer-funds proposal and unreconciled AL-F1 are replaced, not added to this ledger.

Separate seller settlements

Cedar CAD 381,640, Birch CAD 58,600 and contractor CAD 28,400 were paid before completion using separate seller funds, as confirmed in CB-15, BPL-15 and AL-L15. They are not additional buyer uses and must not be deducted a second time from the CAD 700,000 price in this ledger. Seller proceeds follow the jointly executed AL-PD15 direction to Morgan, subject to counsel closing administration.

Prepared and checked

Fictional counsel Priya Shah prepared and a second fictional reviewer Evan Brooks checked the ledger against the agreement, trust receipts and SR-215 at 09:15. Completion and the CAD 500,000 advance remain prospective. Human counsel and the human underwriter retain their own decisions and any final checks; this record makes no insurance-issuance or permission-to-close statement.
