

Prepared registry extracts and instruments

Prepared parcel-register snapshot | October 13, 2026, 09:00

DEMO-PIN-001: Lot 12, fictional Plan DEMO-44. Registered owner Morgan A. Ellis. Prepared training snapshot only, not a live or complete registry search. No certification of current priority or ownership is made.

Entries displayed: DEMO-CH-100, Cedar Bank charge, original principal CAD 420,000; DEMO-CH-220, Birch Private Lending charge, original principal CAD 60,000; DEMO-E-17, access easement; DEMO-L-91, contractor claim described as a construction lien; DEMO-D-88, discharge referring only to DEMO-CH-088.

DEMO-D-88 does not reference DEMO-CH-100 or DEMO-CH-220. This snapshot contains no discharge entry for either of those two charges. Registration dates and entry order in this prepared extract do not establish a legal priority opinion.

Separate prepared extract DEMO-PIN-002: Part 2, DEMO-PLAN-82. Registered owner Rowan Mercer. This identifier is different from DEMO-PIN-001. Both extracts are fictional.

Prepared registry extracts and instruments

Instrument excerpts | DEMO-E-17 and DEMO-L-91

DEMO-E-17 clause 2: DEMO-PIN-001 benefits from pedestrian access over Part 2, DEMO-PLAN-82.

Clause 3: this grant does not authorize vehicular use, parking, storage, or construction on Part 2. Clause 6: a change of use requires a separately executed agreement with the burdened owner. No such agreement is enclosed.

DEMO-L-91 claimant: Alder Masonry Services. Amount claimed CAD 28,400. Property described as DEMO-PIN-001. Claim narrative refers to foundation reinforcement and basement work performed in August 2026. No court disposition, release or discharge of this instrument is included.

Attached index notation: contractor receipt AL-R7 mentions payment of CAD 12,000 for kitchen cabinetry. The index makes no statement that AL-R7 settles DEMO-L-91. Counsel must obtain the underlying scope and settlement records before equating the two.

The instrument excerpts are deliberately incomplete. Any conclusion about enforceability, priority, statutory deadlines, coverage or required registry procedure needs qualified human review and additional evidence.
