

Cedar Bank payout and conditional update

Initial payout statement | October 9, 2026

SYNTHETIC PAYOUT STATEMENT. Creditor Cedar Bank. Borrower Morgan A. Ellis. Charge DEMO-CH-100. Property 18 Alder Lane, DEMO-PIN-001.

Payout amount: CAD 381,250.00. Valid through: 2026-10-12. No daily accrual authority is supplied. A later closing requires a new statement from the creditor. Proposed completion in the signed agreement is October 15, 2026.

Security desk note: charge DEMO-CH-100 participates in a cross-security arrangement involving DEMO-PIN-001 and DEMO-PIN-003, a separate fictional storage property. A statement of indebtedness is not, on its own, an undertaking to release one parcel.

Payment is to the creditor trust account previously verified by transaction counsel. The account details are intentionally omitted from this synthetic file. No payment should be attempted using this exercise.

Cedar Bank payout and conditional update

Conditional update | October 13, 2026, 11:10

Statement reference CB-13. Charge DEMO-CH-100. Calculated amount CAD 381,640.00 for receipt by October 20, 2026. This figure supersedes CB-09 only if the conditions below are satisfied. No unconditional replacement statement is enclosed.

Condition 1: Cedar must accept a separate CAD 45,000 security substitution associated with DEMO-PIN-003. Condition 2: Cedar security desk must confirm in writing that receipt of the stated amount will result in release of DEMO-PIN-001 from the relevant security. Substitution approval remains pending.

The account officer writes: I can confirm the amount calculation, but I cannot confirm the parcel-release conditions or issue a discharge undertaking. Please refer to security desk. No security-desk acceptance appears in this packet.

The October 20 date does not itself make the conditional release executable. No reviewer should substitute a calculated debt figure for evidence that the creditor will release the correct property.
