

Municipal notice and narrow clarification

Municipal file status extract | October 11, 2026

Fictional municipality records for 18 Alder Lane, DEMO-PIN-001. Notice DEMO-M-22 concerns rear deck guards and stairs. Notice DEMO-M-37 concerns basement sleeping accommodation, egress and the recorded number of dwelling units.

Permit DEMO-P-14 covers replacement of deck stairs only. Its scope excludes conversion of the basement to a dwelling unit and excludes changes to structural foundation walls.

DEMO-M-37 remains OPEN in this extract. The municipality requests access for inspection and a plan identifying actual basement use. No final occupancy determination for the basement is attached.

These are prepared excerpts, not a complete municipal search. An open request for inspection is not itself proof of unlawful use or a coverage conclusion.

Municipal notice and narrow clarification

Clarification letter | October 13, 2026

Re: DEMO-M-22 ONLY. The supplied photographs address the rear stair guard issue identified in that notice. DEMO-M-22 is marked CLOSED as of October 13. This correspondence does not address DEMO-M-37, basement occupancy, structural work, zoning compliance or any other permit.

Agent forwarding email: Great news, municipality cleared the property. This comment is not authored or adopted by the municipality.

Municipal officer addendum: DEMO-M-37 remains assigned to a different inspector. The October 17 inspection appointment is scheduled after the current October 15 completion date. No assurance is provided concerning the outcome.

No statement in this packet says the basement tenancy is approved by the lender, or that closing may proceed without further human review.
